

Program Description

This Divine Child Healers Program will support your healing abilities with children and your own ability to stand as a grounding, balancing force to assist children in this time on earth.

Those who have been called to join our program will join because it will support their life mission. This may be a professional mission related to your direct healing work or a personal mission related to the frequency of your interactions with children as a parent, family member or friend.

The Divine Child Healers Program is a six-month program with eight sessions. Participants will be introduced to the concepts of energy in a child's body, how energy works on different levels, how children create their future life experiences and how different settings can prevent the child from allowing their authentic nature and their personality to be fully expressed within them.

I will touch upon the integration of energy in the body and how it connects with the child's sensory system and capacity to sense on the physical and metaphysical level. You will learn how each child has unique settings that enhance their ability within certain fields.

You will also learn about our life purpose in general and how a child's purpose is fulfilled by their role and the incarnation themes in the family, in society, and on a higher level.

Participants will be energetically activated to be healers. You will have your own unique preparation to stabilize and ground you into being a conduit of this powerful healing energy.

The divine child healing modalities taught in the program are the remote healing modalities:

- The **Divine Child Support Healing** - This can be used to assist individual children and groups of children as a 'non-personal' support tool.
- The **Divine Child Deep Reconnection Healing** – This is a deep healing that assists the child on an individual level to reconnect to his or her soul, their inner balance, and their authentic nature.

Disclaimer:

Your level of experience with healing modalities and your own state of balance will determine if you can use the healing modalities professionally after the program. If you are already a certified healer with a lot of experience, this is a tool that you can use in your work after the completion of the course.

If you are newer to using healing techniques this new skill will require some practice. The healing modalities will work on your own balance first. After that, the modalities can be used to assist others. (It is therefore a benefit for you to learn these types of healings whether you are new to this or experienced).

Further, be aware that your openness to receiving clairsentient and clairvoyant input from the client will determine the amount of feedback you receive yourself from these healings. Clairsentience and clairvoyance is not directly taught (though being supported by the energetic practices) in this program.

Each of the modules will be including theory, channeled guidance, time for questions and specific guidance about how to integrate the wisdom and acquired skills into your life.

Description of Modules

Module 1: Basic understanding of energy and how it is integrated in the child's body. Introducing different types of sensing and how the child is wired to fulfill their life mission by how/who they are.

Module 2: Focusing on understanding how different settings in the body and energy field can prevent the child from integrating his, her or their full authentic expression and how we assist changing those settings so their energy can be fully integrated.

Module 3: Focusing on the role of the family or caregiver and how the incarnation themes in the family are a part of the child's mission here on earth. Further in depth understanding of a child's mission and what kind of life experiences can be created to fulfill a life mission.

1st Activation: Divine Child Support Healing will be activated. The activation will promote the understanding about how you can hold your own frequency and allow others to use your energy field as a template for resonance. The activation is a deep meditative process and it is therefore recommended that you have time after the activation to integrate.

Module 4: Parents of the earth, what is our role on the planet right now? We will focus on the purpose of children incarnating with higher consciousness on the planet right now and how to support them with their creation of a higher world/New Earth.

Module 5: Stepping into your role as a professional support on the earth plane. We will focus on how to integrate the use of the healings where you are in your life currently and in your life in the future. There will be time for practical support for those who started using the healing.

2nd Activation: This activation offers Divine Child Deep Reconnection Healing. This activation will promote the understanding about how the healing works to reconnect the child to his/her/their authentic nature and allow all that they are. You support with what you are allowing yourself to be. SO, the healing works differently for each individual depending on what you have integrated. The activation is a deep meditative process and it is therefore recommended that you have time after the activation to integrate.

Module 6: Allowing the realignment with your highest path by integrating all parts of you and opening to your path as a healer for children. Time to finish up and make sure that we have covered all we needed to for this program.

Note: There are three bonus preparation calls this spring on April 21st, May 19th, and June 16th from 9 AM PDT to 10:30 AM PDT on zoom. These calls are not obligatory or an official part of the program. They will be announced when you register and there is no extra cost to attend. On the calls you will be prepared energetically for the content that we are going to work with in the program. This may be relevant for those who want to immediately begin integrating their energy as a healer.

Requirements for Certification

You must attend all modules and activations either live or by replay. There will be small assignments after each module that need to be completed and sent to me by email.

There will also be a minimum requirement of remote child conducted healings each with a self-evaluation submitted to me. The requirements are five healings with the *Divine Child Support Healing* and two healings using the *Divine Child Deep Reconnection Healing*.

All work should be submitted no later than one month following the conclusion of the course to receive a certification certificate from **Awakening to You**. Unless other personal agreements have been made with Matilda.
